## **SCREENING DETAILS:**

The screening is designed to provide an overall developmental review to any child between the ages of 2 to 4 years old. Parents will be asked to fill out a questionnaire regarding their child's development while their child participates in a universal screening, including hearing and vision screening. Specialists in the early childhood field will be available to address any questions or concerns raised by parents. Refreshments will be offered and each family will be sent home with a free goodie bag! Appointments to attend are not necessary, but appreciated.
