August 4, 2020

Dear Parents and Guardians,

At last night's meeting, the Board of Education approved the reopening plan for Onalaska schools. The plan follows current county health department guidelines and is endorsed by the District's physician consultant. A recording of the meeting is available at the [District website](#). More information can also be found on the [reopening page](#) of our District website.

With less than a month before the start of the school year and the Coulee Compass in the "Red-Severe" category, the Board of Education voted to start the year in a completely virtual environment. Through the course of September, we will monitor conditions with the hope of moving to a blended learning model in the first part of October.

We know that this is an incredible burden being placed on our families; the District is working diligently with partner organizations to support safe daytime programming for school age children that complies with the county health department guidelines. We also stand ready to support each and every one of our families to the greatest extent possible. Please look for additional information from your building administrator and do not hesitate to reach out.

Thank you,

Todd L. Antony  
Superintendent
