September 25, 2020

Dear Parents and Guardians,

As a result of the current level of COVID-19 infection, the School District of Onalaska is extending virtual learning through at least October 9. The [District Reopening Plan](#) calls for virtual learning at all grade levels when the county exceeds 25 new daily cases per 100,000 people on a seven day average. The current rate as reported by the [La Crosse County Health Department](#) is 97 new daily cases per 100,000 people on a seven day average, indicating that the county is in the severe range related to the spread of the virus and that it is not safe for the congregation of large groups. Every Wednesday the District will update our [local dashboard](#) and make a determination concerning virtual or in-person learning.

The District is working closely with the YMCA on the continuation of surround care and emergency school aged daytime services. Programming for families currently enrolled will continue through October 9.

Thank you for your continued support during the beginning of this year; your efforts with your children have not gone unnoticed. Please reach out to your school administrators for any additional needs you may have in the virtual learning environment.

Sincerely,

Todd L Antony
