October 14, 2020

Dear Parents and Guardians,

The current case rate as reported by the [La Crosse County Health Department](#) continues in a positive trend. Today's data update indicates that we are averaging 26.9 new daily cases per 100,000 people on a seven day average. If this trend continues and we are in the Orange category next Wednesday, we will begin in-person programming on **Monday, October 26th**. Our next announcement regarding virtual or in-person programming will be on Wednesday, October 21. Please refer to our [District Dashboard](#) for more information.

We are encouraged by the latest news from La Crosse County as it is very positive compared to what is happening across the state overall. Continuing to follow all guidelines related to social distancing, mask wearing and the limiting of public gatherings will assist in this trend and help to bring students physically back to school.

Sincerely,

Todd L Antony  
Superintendent
